## Profile

---

Since graduation from Falmouth College of Arts in 2002 I have worked on many different projects of varying scales from start-up businesses to charities. My most recent employment has been with Soda as a Freelance Designer.

I am a versatile designer who has over 8 years experience in producing thoughtful and insightful design solutions for both website design and print design briefs. Whilst my main interest has recently been with print design, particularly branding and identity, I have a thorough knowledge of web and usability best practices, and get excited by the potential of new devices such as the iPhone and iPad. Due to the requirements of my last role I also have good knowledge of professional print processes.

**BA (Hons) Graphic Design**  
Falmouth College of Arts  
**Foundation Studies in Art, Media, and Design**  
University of the West of England
